Professional Experience

Self-motivated and detail-oriented web designer working with the latest technologies and tools to create unique web layouts and engaging experiences. Skilled in developing responsive websites using HTML 5, CSS 3 and media queries.

December 2014 - January 2015

Portfolio redesign for michael-cohen.me

- Developed the responsive Portfolio website to clearly communicate experience and skills

- Created Case Studies to show the communication between clients and web designer

- Captured high quality screenshots to showcase client websites

September 2014 - September 2014

Web Designer for annefritz.com

- Designed and developed the website on a tight deadline

- Organised assets and updated photos

- Set up the owl carousel jQuery plugin to display a slide show of pictures

- Categorised the photos into groups for easy viewing

June 2014 - August 2014

Responsive Web Designer for djlampasi.com

- Created the responsive front-end interface using a mixture of percentage and pixel width columns

- Carefully crafted media queries to change the layout at certain breakpoints

- Embedded Soundcloud widgets

- Implemented the fancy box jQuery plugin to display photos in a light box with next and previous buttons

Education

Self-taught Web Designer   January 2013 - Present

- Taught myself HTML, CSS, Javascript and jQuery through Tuts+ and Youtube
